AIST++
1,408 sequences
native 60 Hz
Group-held-out split
genre + choreography
no overlap
Training
1,002 sequences
three seeds
Development
185 sequences
broad gate failed
Held-out test
221 sequences
sealed until freeze
Frozen model + hypothesis
72-frame limb gap
finite vs. fractional
Confirmatory test
1,419 windows
10,000 bootstraps
Decision
four rules
passed
Post-confirmatory duration response
24-96-frame limb gaps
three mask repeats
